About Me

Frontend Developer with **3+ years of experience**, specialized in **React, Next.js, and TypeScript**. Focused on building **scalable applications** following **SOLID principles and Clean Code** practices. Currently expanding my skill set into the **Node.js ecosystem (NestJS / PostgreSQL)** with the goal of becoming a **Full-Stack Developer**.

Professional Experience

Vita Wallet - Frontend Developer

Apr 2025 - Nov 2025

- Developed and maintained the core **cross-platform application** (Web, Android, iOS) using **React Native and TypeScript**, applying SOLID principles and design patterns such as **Singleton** to ensure modular and maintainable code.
- Implemented **native biometric authentication flows** to enhance mobile security and user authentication, and managed critical error tracking using **Sentry**.
- Built and maintained the **administrative dashboard** with **React Admin**, optimizing data loading and financial operations visualization through **REST API integrations** (Axios).

NovaSalud as Freelancer - Frontend Developer

Feb 2024 - Apr 2024

- Developed a **job portal for the healthcare sector** using **Next.js 14 and Tailwind CSS**, prioritizing performance and SEO.
- Implemented **complex state management and data caching** with **React Query**, ensuring a smooth user experience for job searching and filtering.
- Integrated **secure authentication** using **Auth0** and designed a **documented component library** with **Storybook** to ensure visual consistency.

Renaiss - Frontend Developer

Apr 2023 - Jan 2024

- Collaborated on the development of **AlForce**, an AI-powered file management platform, using **Next.js 13 and Redux** for global state management.
- Developed a **real-time chat interface** and file upload modules, consuming **REST APIs** for metadata management.
- Implemented **session security** using **React Cookies and local storage**, optimizing token-based authentication flows.

Aluxion - Frontend Developer

Feb 2023 - Apr 2023

- Promoted to **Frontend Developer** after 10 months as a **UI Developer** due to strong technical performance in scalable projects.
- As Frontend Developer: worked on integrations for **HLA Hospitales** and **CBRE**, using **Vite and Next.js**. Implemented **JWT authentication flows** and complex forms with **React Hook Form**.
- As UI Developer: built **interactive and responsive interfaces** using **Styled-components** and **GSAP animations**, translating **Figma designs** into components following **Atomic Design** principles.
- Optimized **React Native application performance**, reducing load times in document management modules.

Skills

- Frontend:** React, Next.js (13/14/15), React Native, TypeScript, JavaScript (ES6+), Vite
 - States and Data Management:** Redux, Context API, React Query, Axios, REST APIs
 - Styling & UI:** Tailwind CSS, Styled-components, Storybook, GSAP
 - Tools and Testing:** Git, GitHub, GitLab, Vercel, Sentry, React Hook Form
 - Methodologies:** SOLID, Clean Code (KISS, DRY), Agile / Scrum
-

Tech Education & Certificates

- **Advanced Full-Stack Development Certification** | ITBA (Buenos Aires Institute of Technology)
 - **Backend with NodeJs - Nest** | Udemy (In progress)
 - **SOLID and Clean Code Principles** | Udemy
 - **Typescript Complete Guide** | Udemy
 - **Next.js 15 and React** | Udemy
-

Languages: English- Conversational B2 | **Spanish** - Native

Main Projects

- **Habitia (FullStack - In Progress)**: Real estate management and multi-listing platform. Full-stack architecture built with **Next.js**, **Prisma ORM**, and **MongoDB**, focusing on scalability, complex data models, modern design patterns, and advanced user experience optimization.
- **Vita Wallet (Frontend)**: Cross-platform financial application for currency and crypto transactions (available in app stores).
- **Tecsopel SA (Frontend)**: Optimized digital product catalog with advanced filtering systems and detailed product views.
